THE PROMISE

Walk away knowing your family is covered — without spending a weekend on it.

In one short call, you'll get a clear picture of what your family actually needs, exact monthly pricing from top-rated carriers, and a policy you understand line by line. No follow-up sales calls. No pressure. Just a plan you can live with — and one that keeps working long after we hang up.

THE PROBLEM

Most people put off life insurance because the whole process feels rigged.

You've probably tried. You Googled "term vs whole life," compared three quote sites, gave your number to one — and got calls for six weeks from agents pushing whatever pays them best.

So the tab stays open. Months pass. The people you love stay one bad day away from a financial mess you already know how to prevent.

IF THIS SOUNDS FAMILIAR

You're not lazy. You're just tired of being sold to.

You feel guilty every time you think about it

Because you know it matters, and you know you've been putting it off.

You don't trust what agents are telling you

Every quote sounds different. Every rep pushes a different product. Who's actually on your side?

You're worried you'll pay too much or buy the wrong thing

You don't want to be the person who bought a policy that doesn't pay when it counts.

You keep hoping there's a simpler way

There is. It just isn't the loudest voice in your inbox.

PROOF OF RESULTS

Twelve years, thousands of policies, one honest approach.

I started as a captive agent for a large carrier and left because I couldn't stand recommending the same product to every family. Today I work independently, which means I get paid the same regardless of the carrier you choose — so the recommendation is always about you.

THE PROCESS

Three simple steps. No paperwork before we talk.

01

Book your free 15-minute call

Pick a time that works. No forms to fill out first. No prep required.

02

We talk about your actual life

Family, income, mortgage, goals. I ask questions, you talk. Real conversation, not a sales script.

03

I shop 30+ carriers and send you the top 3 options

Side-by-side, in plain English, with exact monthly pricing. You pick, or you walk. No pressure.

WHY THIS IS DIFFERENT

An independent advisor, not another quote form.

What matters	Working with Sarah	Typical captive agent
Works for	You and your family	The carrier that pays them most
Carriers offered	30+ A-rated, compared for you	Whatever their company sells
Call length	15-20 minutes, one time	Weeks of follow-ups
Recommendation style	Plain English, side-by-side	Jargon and pressure
After you buy	Annual review, always reachable	You never hear from them again

WHAT IT COSTS

The consultation is free. The policy costs less than you think.

A healthy 35-year-old can lock in **\$500,000 of term coverage for around \$28-\$45 a month** — less than most people spend on streaming subscriptions. The average family I work with pays under \$50/month for the coverage they actually need.

My advice is free. I'm paid by the carrier only if you decide to move forward — and I earn the same commission regardless of which one you pick.

TYPICAL MONTHLY COST

\$38 /month

\$500K in 20-year term coverage · healthy non-smoker, age 35

Compared to the average U.S. funeral cost of **\$9,420** and average outstanding mortgage of **\$236,000**, coverage is the least expensive protection your family will ever own.

WHAT CLIENTS SAY

Real people. Real families. Real reviews.

★★★★★

"Sarah didn't try to upsell us once. She actually talked us out of a policy that was too big for what we needed. That's when I knew she was the real deal."

Marcus & Priya R.
Married, two kids · Dallas, TX

★★★★★

"I'd been putting this off for four years. She made it feel like a conversation with a friend who happens to know insurance inside out. Signed up the same week."

Danielle K.
Small business owner · Atlanta, GA

★★★★★

"My previous agent kept ghosting me. Sarah still checks in every year to see if anything's changed. That's what I was paying for and never got before."

NO-RISK PROMISE

If the call isn't useful, you owe me nothing — and I mean that.

Every policy I recommend comes with a 30-day free look — cancel for any reason and get every dollar back. And if our first call doesn't give you real clarity on what coverage you need and what it should cost, we hang up and you've lost 15 minutes. That's the whole risk.

The 15-Minute Guarantee

You'll leave the call with a clear answer on coverage, price, and next steps — or I'll refer you to someone who can help. No hard sell. Ever.

WHY NOW

Life insurance gets more expensive every birthday. And every check-up.

Rates are based on your age and health *today*. Waiting a year can add 8–12% to your monthly premium for the exact same coverage. A single new diagnosis — high blood pressure, a borderline blood test — can double it or take some carriers off the table entirely. The best time to lock in a rate is the version of you that exists right now.
